CS50 Introduction to Computer Science   **Online**
Harvard University

Experience

Self Employed   March 2022 - Current
Programming Tutor

- Tutored students in HTML, CSS (BEM), Flexbox and JavaScript best practises
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests
- Taught debugging best practises using Google Chrome inspect element tooling
- Provided website UI designs to 1:1 and reviewed code through weekly code reviews

Personal Projects

Blackjack App
https://chronat0s.github.io/Blackjack-App/
- Designed a blackjack application utilising semantic HTML5, CSS3 (+BEM) and JavaScript best practises.
- Manipulated objects within arrays to have a dynamic free flowing Blackjack application.

Wordle-Like Pokemon Guessing Game
https://chronat0s.github.io/Who-s-That-Pokemon-Game-Project/
- Takes in guesses (up to 8 guesses) and utilises an API to compare guesses to mystery Pokemon to then display hints to narrow down the identity of the mystery Pokemon.
- Autocomplete dropdown menu integrated.
